B. Current Status

The parties have conferred via e-mail regarding these matters. At this time, the parties agree that it would be in the interest of judicial economy to enter into the Court's mediation program to explore the possibility of resolving some or all of Plaintiff's claims without the need for further litigation. The parties agree that this case, along with the two others noted above, would benefit from referral to a voluntary appointed mediator, as provided in Local Rule of Civil Procedure 84, regarding the Mediation Program of the United States District Court for the District of Columbia, for purposes of facilitating settlement discussions. The parties would like the opportunity to provide the Court's mediation staff with suggestions as to what experience or style may be most effective for the selected mediator.<sup>2</sup>

Each party has considered its client's respective goals in bringing or defending the litigation. In order to conserve both the parties' and judicial resources, the parties agree that mediation would be most appropriate at the outset of these actions. Accordingly, the parties propose a 90-day stay of all proceedings from the date of the Court's entry of a scheduling order to allow the parties to pursue mediation.
