1 **I. INTRODUCTION**

2 To further the Washington Legislature’s goals of reducing energy  
3 consumption and greenhouse gas emissions, the State Building Code Council  
4 (SBCC) adopted statewide building code provisions requiring the installation of  
5 heat pumps in new construction in certain circumstances. The rules were  
6 originally meant to take effect on July 1, 2023. However, the SBCC delayed the  
7 effective date to October 29, 2023, in order to amend the codes to address federal  
8 preemption issues regarding heating appliances following the issuance of the  
9 Ninth Circuit’s decision in *California Restaurant Association v. City of Berkeley*,  
10 65 F.4th 1045 (9th Cir. 2023). As that decision noted, state building codes are  
11 exempt from preemption if they meet certain statutory criteria. The SBCC is  
12 actively participating in rulemaking to amend its rules to fit within this  
13 exemption.

14 Plaintiffs’ Complaint nonetheless challenges the now-delayed rules on  
15 federal preemption grounds, but their claims suffer from two fatal jurisdictional  
16 flaws. First, Plaintiffs’ lawsuit against the SBCC is barred by the Eleventh  
17 Amendment, which prohibits private parties from suing state agencies in federal  
18 court. That alone requires dismissal.

19 Second, Plaintiffs’ Complaint is not justiciable under Article III standing  
and ripeness requirements. Plaintiffs cannot show any actual or imminent injury  
from the delayed rules; to the contrary, the SBCC delayed them specifically to  
allow for rule amendments to address preemption concerns. The Court should

1 therefore dismiss this case.

## 2 II. STATEMENT OF FACTS

### 3 A. The State Building Code Council’s Role is to Establish Minimum 4 Building Code Requirements to Promote the Health, Safety, and 5 Welfare of Washingtonians

6 As Washington’s Legislature has found, “energy efficiency is the cheapest,  
7 quickest, and cleanest way to meet rising energy needs, confront climate change,  
8 and boost our economy.” Wash. Rev. Code § 19.27A.130. To meet those goals,  
9 Washington, like most other states, has adopted a building energy code.  
10 Washington’s building codes are promulgated by the SBCC, a state  
11 quasi-legislative agency with members representing a broad range of stakeholder  
12 interests. *See* Wash. Rev. Code §§ 19.27.031; .070; .074; .020. The SBCC  
13 establishes the minimum statewide building, residential, mechanical, fire,  
14 plumbing, and energy code requirements to promote the health, safety, and  
15 welfare of Washingtonians. *Id.* at § .020(1); Wash. Admin. Code § 51-04-010.  
16 The SBCC has no enforcement authority; it cannot approve or deny building code  
17 applications, nor does it enforce the code. Wash. Rev. Code § 19.27.050. Rather,  
18 local building code officials in cities, counties, and other municipalities are  
19 responsible for approval of building permit applications, as well as code  
enforcement. *Id.*

In accordance with its purpose, the SBCC regularly amends the state building codes to accommodate technological advances and address novel problems. This process begins when the International Code Council releases new

1 editions of model codes, and ends with the formal adoption of the state building  
2 code as amended by the SBCC. *See generally* Wash. Admin. Code § 51-04-020  
3 (rules for consideration of proposed statewide amendments). This process occurs  
4 in a three-year cycle, in line with the release of the ICC model codes. Wash. Rev.  
5 Code § 19.27.074(1)(a), (c). When a new model code is released, the SBCC  
6 allows anyone with an interest to petition the SBCC to amend the new model  
code. Wash. Admin. Code § 51-04-020(3), Wash. Admin. Code § 51-04-025.

7 Following its consideration of public petitions for amendments to the rules,  
8 the full SBCC votes on which code amendments will move forward. Wash.  
9 Admin. Code § 51-04-020(3). Any proposals that the SBCC approves by a  
10 majority vote are filed with the State Code Reviser and published in the  
11 Washington State Register as proposed rules in accordance with the Washington  
12 Administrative Procedure Act. Wash. Admin. Code § 51-04-020(3)(d);  
13 Wash. Rev. Code § 19.27.074(5)(a). The SBCC then conducts at least two public  
14 hearings for the proposals. *Id.* Because the SBCC is a public agency bound by  
15 the Washington State Open Public Meetings Act, Wash. Rev. Code 42.30,  
16 Wash. Rev. Code § 19.27.074(5)(a), the SBCC must hold a meeting, announced  
17 in advance and open to the public when taking any action, including proposing  
18 rules or adopting them. *See, e.g.*, Wash. Rev. Code § 42.30.030.  
19

1 **B. The Adoption and Delay of the Challenged Rules and the SBCC’s**  
2 **Initiation of Amended Rulemaking**

3 **1. The SBCC passes space and water heating rules for new**  
4 **construction, initially intended to be effective July 1, 2023**

5 In late 2022 and early 2023, the SBCC amended the Washington State  
6 Energy Code to generally require installation of heat pump heating, ventilation,  
7 and air conditioning (HVAC) appliances and heat pump water heaters in new  
8 commercial and residential buildings, effective July 1, 2023. 22-14 Wash. Reg.  
9 091 (July 1, 2022) §§ 403.1.4, 404.2.1; 23-02 Wash. Reg. 060 (January 3, 2023)  
10 §§ 403.5.7, 403.13.<sup>1</sup> These rules have multiple exceptions, including allowance  
11 of fossil fuel burning appliances in certain circumstances. *E.g.*, 22-14 Wash. Reg.  
12 091 § 403.1.4(9) (permitting an exception for “[p]ortions of buildings that require  
13 fossil fuel or electric resistance space heating for specific conditions *approved* by  
14 the *code official* for research, health care, process or other specific needs that  
15 cannot practicably be served by heat pump or other space heating systems.”).

16 These amendments were enacted in part to further the State Legislature’s  
17 mandate to reduce the carbon footprint of new construction. *See* Wash. Rev. Code  
18 §§ 19.27A.020(2)(a) (articulating state goal of building zero fossil-fuel  
19 greenhouse gas emission homes and buildings by 2031); 19.27A.160(2)

---

1 <sup>1</sup> For ease of reference, the relevant amendments to the Commercial  
2 Energy Code are attached to this brief as Appendix A. The amendments to the  
3 Residential Energy Code are attached as Appendix B.

1 (requiring the SBCC to adopt state energy codes that “incrementally move  
2 towards achieving the seventy percent reduction in annual net energy  
3 consumption” by 2031).

4 **2. The Energy Policy and Conservation Act and the Ninth  
5 Circuit’s recent ruling in *California Restaurant Association v.  
6 City of Berkeley***

7 Following the 1970s oil embargo and subsequent energy crisis, Congress  
8 passed the Energy Policy and Conservation Act (EPCA), the nation’s first  
9 “comprehensive national energy policy.” See H.R. Rep. No. 94-340, at 20 (1975),  
10 *reprinted in* 1975 U.S.C.A.A.N. 1762, 1782; *see generally, Air Conditioning and*  
11 *Refrigeration Inst. v. Energy Res. Conserv. & Dev.*, 410 F.3d 492, 498–99 (9th  
12 Cir. 2005) (AHRI); *Natural Res. Defense Council v. Abraham*, 355 F.3d 179,  
13 184–87 (2d Cir. 2004) Increasing energy efficiency and decreasing domestic  
14 energy consumption are explicitly listed as core purposes of the Act. See 42  
15 U.S.C. § 6201 (EPCA’s purposes include conserving energy and water supplies  
16 and improving the energy efficiency of “major appliances” and other consumer  
17 products). As the Ninth Circuit has noted, “EPCA was designed, in part, to reduce  
18 the United States’ ‘domestic energy consumption through the operation of  
19 specific voluntary and mandatory energy conservation programs.’” *AHRI*, 410  
F.3d at 498–99 (quoting S. Rep. No. 94-516, at 117 (1975)).

EPCA establishes energy efficiency standards for certain consumer  
products, and requires the U.S. Department of Energy to review and update the  
standards for those products periodically. 42 U.S.C. §§ 6292, 6295. “Covered

1 products,” or consumer products for which an efficiency standard has been  
2 established under the Act, include refrigerators, central air conditioners and heat  
3 pumps, hot water heaters, dishwashers, kitchen ranges and ovens, pool heaters,  
4 and showerheads, among others. *Id.* at §§ 6292 (listing covered products), 6291  
(defining “covered product”).

5 In April 2023, the Ninth Circuit ruled in *California Restaurant Association*  
6 *v. City of Berkeley*, 65 F.4th 1045 (9th Cir. 2023), that EPCA preempted a city  
7 ordinance that generally prohibited installation of natural gas piping in newly  
8 constructed buildings. In so holding, the court determined that EPCA’s express  
9 preemption provision is not limited to state and local rules that directly regulate  
10 the energy efficiency or usage of EPCA-covered products, but rather extends to  
11 rules indirectly affecting the energy usage of such products. *Id.* at 1048, 1050–  
12 56. The City of Berkeley’s petition for rehearing en banc is currently pending,  
13 supported by the United States. *See City of Berkeley’s Petition for Rehearing En*  
14 *Banc, California Restaurant. Ass’n v. City of Berkeley*, 65 F.4th 1045 (9th Cir.  
15 May 31, 2023) (No. 21-16278), ECF No. 92; Brief for the United States as  
16 Amicus Curiae in Support of Petition for Rehearing, *California Restaurant Ass’n*  
*v. City of Berkeley*, 65 F.4th 1045 (9th Cir. June 12, 2023), ECF No. 94.

17 The City of Berkeley’s ordinance differs from the SBCC’s challenged  
18 rules in several key respects, including that Berkeley’s challenged ordinance  
19 instituted a flat-out ban (with some exceptions) on the installation of natural gas  
infrastructure in new construction. *Cal. Rest. Ass’n*, 65 F.4th at 1048. In striking

1 down the ordinance, the Court noted: “We only hold that EPCA prevents  
 2 Berkeley from banning new-building owners from extending fuel gas piping  
 3 within their buildings from the point of delivery at the gas meter.” *Id.* at 1055.  
 4 Unlike Berkeley’s ordinance, SBCC’s statewide building codes do not prohibit  
 5 builders or customers from using natural gas in new construction. Further, three  
 6 of the four challenged provisions do not prevent consumers from using covered  
 7 appliances in their homes and businesses. The residential energy code allows  
 8 consumers to purchase, install, and use natural gas HVAC and water cooling  
 9 appliances, but limits *when* the appliances may be used, requiring that they be  
 10 integrated into heat pump systems for supplemental or auxiliary heating. *See*  
 11 23-02 Wash. Reg. 060 §§ R403.5.7.1, R403.1.2. And the commercial energy code  
 12 broadly permits auxiliary water heaters that use fossil fuel combustion. 22-14  
 13 Wash. Reg. 091 § 404.2.1.4.

12 **3. The SBCC delays the rules’ effective date to permit amended**  
 13 **rulemaking in light of *California Restaurant Association***

14 Following the Ninth Circuit’s ruling, the SBCC called a special meeting to  
 15 consider the decision’s impact on the Energy Code. The SBCC announced the  
 16 special meeting on May 18, 2023, and held it on May 24, 2023. Decl. of Stoyan  
 17 Bumbalov (Bumbalov Decl.) ¶ 11.<sup>2</sup> The agenda for the meeting, published on the

18 <sup>2</sup> As discussed *infra* § III, the SBCC is making a factual jurisdictional  
 19 challenge on standing and ripeness grounds, and the Court may therefore consider  
 declarations relating to the SBCC’s decision to delay the rules and initiate

1 SBCC website on May 18 (four days before Plaintiffs filed this lawsuit),  
2 indicated that the SBCC would “Discuss Potential Consequences of the 9th  
3 Circuit Court of Appeals Decision in *California Restaurant Association v. City*  
4 *of Berkeley* for the Washington Energy Code and Take Possible Action on  
Options to Address those Consequences[.]” Bumbalov Decl. ¶ 11, Ex. A.<sup>3</sup>

5 At the meeting, the SBCC voted to postpone the implementation of its  
6 amendments to the Energy Code. *Id.* ¶ 11. The SBCC filed a CR 103P  
7 Rulemaking Order to effectuate the delay of the rules to October 29, 2023, “to  
8 evaluate what, if any, changes may be necessary . . . to maintain compliance with  
9 [EPCA] given the recent Ninth Circuit Court of Appeals ruling[.]” *Id.* at ¶¶ 12–  
10 13, Ex. B.

11 The SBCC also voted at the special meeting to initiate rulemaking to  
12 amend the Energy Code if necessary to maintain compliance with EPCA in light  
13 of the Ninth Circuit’s decision. *Id.* at ¶ 14. The SBCC then initiated rulemaking  
14 by filing CR 101 Preproposal Statement of Inquiry forms on May 30, 2023. *Id.*

15 \_\_\_\_\_  
16 rulemaking, to the extent they rebut the Complaint’s assertion that the challenged  
rules will go into effect on July 1, 2023.

17 <sup>3</sup> The meeting agenda can be found on the SBCC’s website. *See*  
18 Memorandum from Tony Doan to State Building Code Council (May 18, 2023)  
19 [https://www.sbcc.wa.gov/sites/default/files/2023-05/a05242023C\\_Special%20  
Meeting\\_0.pdf](https://www.sbcc.wa.gov/sites/default/files/2023-05/a05242023C_Special%20Meeting_0.pdf).

1 at ¶ 15, Ex. C. The SBCC requested code change proposals with an initial  
2 deadline of June 9, 2023, and these proposals will go through the SBCC’s internal  
3 review process. *Id.* at ¶ 16. Any proposals that are initially approved by the full  
4 SBCC will be filed with the Washington State code reviser’s office as proposed  
5 rules, the SBCC will receive public comments regarding the adoption of the rules,  
6 and, following the close of the public comment period, will vote to revise or adopt  
7 the rule proposals. *Id.* at ¶ 17. If it appears that rulemaking to amend the rules  
8 cannot be completed by October 29, the SBCC can vote to file additional  
9 CR 103P forms modifying the rules’ effective date, thereby further delaying the  
10 rules. *Id.* at ¶ 18.

### 10 C. Plaintiffs’ Lawsuit

11 Plaintiffs filed this lawsuit on May 22, 2023, seeking a permanent  
12 injunction enjoining the SBCC from enforcing the now-delayed rules, and a  
13 declaratory judgment that the rules are preempted under EPCA. ECF No. 1 at 25  
14 ¶¶ 89–93. Plaintiffs have also moved for a preliminary injunction that is set for  
15 oral argument on July 18, 2023. ECF Nos. 25, 26.

### 15 III. LEGAL STANDARD

16 The Eleventh Amendment prohibits private suits against states and state  
17 agencies without their consent or waiver. *See Sofamor Danek Grp., Inc. v. Brown*,  
18 124 F.3d 1179, 1183 (9th Cir. 1997). Eleventh Amendment immunity is  
19 “quasi-jurisdictional,” and may be properly raised in either a Rule 12(b)(1)  
motion or a Rule 12(b)(6) motion. *Sato v. Orange Cnty. Dep’t of Educ.*, 861 F.3d

1 923, 927 n.2 (9th Cir. 2017) (collecting cases deciding sovereign immunity  
2 defenses under both rules); *Pistor v. Garcia*, 791 F.3d 1104, 1111 (9th Cir. 2015)  
3 (“Although sovereign immunity is only quasi-jurisdictional in nature, Rule  
4 12(b)(1) is still a proper vehicle for invoking sovereign immunity from suit.”).  
5 Under either theory, dismissal with prejudice is required when the claims are  
6 barred by state sovereign immunity pursuant to the Eleventh Amendment, and  
7 the issue of Eleventh Amendment immunity must be resolved before reaching  
8 the merits of the case. *Doe v. Regents of the Univ. of California*, 891 F.3d 1147,  
9 1153–54 (9th Cir. 2018); *Coal. to Defend Affirmative Action v. Brown*, 674 F.3d  
10 1128, 1133 (9th Cir. 2012); *Krainski v. Nevada ex rel. Bd. of Regents of Nevada*  
11 *Sys. of Higher Educ.*, 616 F.3d 963, 968 (9th Cir. 2010).

12 In addition, without Article III standing and ripeness, a court lacks subject  
13 matter jurisdiction under Rule 12(b)(1) and the case must be dismissed. *Cetacean*  
14 *Cmty. v. Bush*, 386 F.3d 1169, 1174 (9th Cir. 2004). The presumption is “that  
15 federal courts lack jurisdiction unless the contrary appears affirmatively from the  
16 record.” *Renne v. Geary*, 501 U.S. 312, 316 (1991) (quoting *Bender v.*  
17 *Williamsport Area Sch. Dist.*, 475 U.S. 534, 546 (1986)). Plaintiffs bear the  
18 burden to establish Article III standing and ripeness and to show that prudential  
19 ripeness concerns support review. *Chandler v. State Farm Mut. Auto. Ins. Co.*,  
598 F.3d 1115, 1122 (9th Cir. 2010); *Stormans, Inc. v. Selecky*, 586 F.3d 1109,  
1126 (9th Cir. 2009).

1 A Rule 12(b)(1) motion may challenge the existence of subject matter  
2 jurisdiction in two ways. First, a “facial attack” asserts that “the allegations  
3 contained in a complaint are insufficient on their face to invoke federal  
4 jurisdiction.” *Safe Air for Everyone v. Meyer*, 373 F.3d 1035, 1039 (9th Cir.  
5 2004). The court will adjudicate the motion much as a Rule 12(b)(6) motion,  
6 confining its analysis to the allegations contained in the complaint, documents  
7 attached thereto or referenced therein, and any judicially noticeable facts, taking  
8 all allegations of material fact as true and construing them in the light most  
9 favorable to the plaintiff. *Doe v. Holy See*, 557 F.3d 1066, 1073 (9th Cir. 2009)  
10 (per curiam); *Kalaka Nui, Inc. v. Actus Lend Lease, LLC*, No. 1:08-cv-00308  
SOM-LEK, 2009 WL 1227892, at \*1 (D. Haw. May 5, 2009).

11 Second, a “factual attack” disputes “the truth of the allegations that, by  
12 themselves, would otherwise invoke federal jurisdiction.” *Safe Air for Everyone*,  
13 373 F.3d at 1039. In a factual attack, “the district court may review evidence  
14 beyond the complaint without converting the motion to dismiss into a motion for  
15 summary judgment,” and it “need not presume the truthfulness of the plaintiff’s  
16 allegations.” *Id.* (citing *Savage v. Glendale Union High Sch.*, 343 F.3d 1036,  
17 1039 n.2 (9th Cir. 2003); *White v. Lee*, 227 F.3d 1214, 1242 (9th Cir. 2000)). If  
18 the jurisdictional issue is separable from the case’s merits, the court may consider  
19 the evidence presented and resolve factual disputes where necessary to the  
determination of jurisdiction. *AAMC v. United States*, 217 F.3d 770, 778 (9th Cir.  
2000); *Chaganti v. 12 Phone Int’l, Inc.*, 635 F. Supp.2d 1065, 1070 (N.D. Cal.

1 2007), *aff'd*, F. App'x 54 (9th Cir. 2009). In all cases, “[i]t is to be presumed that  
2 a cause lies outside this limited jurisdiction [of the federal courts], and the burden  
3 of establishing the contrary rests upon the party asserting jurisdiction[.]”  
4 *Kokkonen v. Guardian Life Ins. Co. of Am.*, 511 U.S. 375, 377 (1994).

5 In this case, this motion’s Eleventh Amendment argument is a facial  
6 challenge to this Court’s jurisdiction, because it does not challenge the truth of  
7 the allegations in the complaint and instead asserts that the Complaint fails to  
8 assert facts giving rise to jurisdiction. *Safe Air for Everyone*, 373 F.3d at 1039.

9 By contrast, this motion’s Article III ripeness and standing argument is a  
10 factual challenge to jurisdiction because it challenges the truth of certain  
11 allegations in the Complaint. *See id.* Specifically, the Complaint alleges that the  
12 challenged amendments become effective on July 1, 2023. ECF No. 1 at 6–7, 10  
13 ¶¶ 24, 25, 37. That allegation is separable from the merits of Plaintiffs’ claims,  
14 and it is no longer accurate. The Court may consider declarations to resolve these  
15 factual questions and determine whether it has jurisdiction. *See Safe Air for*  
16 *Everyone*, 373 F.3d at 1039 (a moving party may “convert[] the motion to dismiss  
17 into a factual motion by presenting affidavits or other evidence properly brought  
18 before the court[.]”) (quoting *Savage v. Glendale Union High Sch., Dist. No. 205*,  
19 343 F.3d 1036, 1039 n.2 (9th Cir. 2003)). This motion therefore cites evidence  
relating to the SBCC’s decision to delay the rules’ effective date and to initiate  
rulemaking in light of the Ninth Circuit’s decision in *California Restaurant*  
*Association v. City of Berkeley*.

#### IV. ARGUMENT

1  
2 Plaintiffs' claims must be dismissed for two separate reasons. First, the  
3 Eleventh Amendment bars Plaintiffs from bringing suit against the SBCC, a state  
4 agency. Second, Plaintiffs lack Article III standing and ripeness because they  
5 cannot show any actual or imminent injury. The rules they challenge on federal  
6 preemption grounds have been delayed specifically in order to permit time for  
7 rulemaking to ensure compliance with federal law in light of the Ninth Circuit's  
8 recent decision. Plaintiffs' claimed injuries from the delayed rules are therefore  
9 hypothetical and conjectural and insufficient to establish standing and ripeness.  
10 Because Plaintiffs have failed to meet the requirements of Article III, this Court  
11 lacks subject matter jurisdiction.

##### A. Plaintiffs' Claims are Barred by the Eleventh Amendment

11 Plaintiffs' Complaint must be dismissed under the "jurisdictional bar of  
12 the Eleventh Amendment," *Seminole Tribe of Florida v. Florida*, 517 U.S. 44,  
13 73 (1996), which prohibits "federal courts from hearing suits brought by private  
14 citizens against state governments without the state's consent," *Sofamor Danek*  
15 *Grp., Inc.*, 124 F.3d at 1183. This bar extends to actions against agencies of a  
16 state, such as the SBCC. *Romano v. Bible*, 169 F.3d 1182, 1185 (9th Cir. 1999)  
17 (citing *Pennhurst v. Halderman*, 465 U.S. 89, 100 (1984)). To determine when  
18 an agency is an "arm of the state" for Eleventh Amendment immunity, the Ninth  
19 Circuit looks to five factors: whether a money judgment would be satisfied out  
of state funds, whether the entity performs central governmental functions,

1 whether the entity may sue or be sued, whether the entity has the power to take  
2 property in its own name or only the name of the state, and the corporate status  
3 of the entity. *Mitchell v. Los Angeles Community College Dist.*, 861 F.2d 198,  
4 201 (9th Cir. 1988).

5 Here, all five factors are met and SBCC is squarely a state agency. First, a  
6 money judgment against the SBCC would be satisfied out of state funds. The  
7 SBCC is established as an quasi-legislative body housed within the Washington  
8 Department of Enterprise Services (DES), a State executive branch agency  
9 (Wash. Rev. Code §§ 19.27.070; 43.19.005(1)), its budget comes from the State  
10 legislature via appropriations (*id.* at § 19.27.085(1)), and as with all State  
11 agencies, the State is responsible for satisfying money judgments against it (*see*  
12 *generally id.* at § 4.92). Second, SBCC performs central governmental functions,  
13 specifically adopting and maintaining statewide building codes consistent with  
14 the State’s interest (*id.* at § 19.27.074(1)(a)–(c)). Third, there is no statutory  
15 authorization for the SBCC to sue or be sued, because it is “established in” DES,  
16 and so is not completely independent of it (*id.* at § 19.27.070), and the only work  
17 it does in its own name is the promulgation of statewide building codes (*id.* at  
18 § 19.27.074(1)). Fourth, the SBCC is not authorized to take property in its own  
19 name. The SBCC’s powers are delineated by statute, and those powers are  
circumscribed to those necessary to promulgate building codes. *See id.* at  
§ 19.27.074(2). Even employment of staff and provision of administrative and  
information technology services is the responsibility of DES rather than the

1 SBCC itself. *Id.* at § 19.27.074(3). And finally, as to corporate status, the SBCC  
2 is a State statutory executive branch body. *See id.* at §§ 19.27.070; 43.19.005(1).

3 Accordingly, the Eleventh Amendment applies to bar suits against the  
4 SBCC. There are only three narrow exceptions to this bar, and none apply here.  
5 *See Douglas v. California Dep't of Youth Auth.*, 271 F.3d 812, 817 (9th Cir.),  
*amended*, 271 F.3d 910 (9th Cir. 2001).

6 First, the State has not waived its Eleventh Amendment defense. *See id.*

7 Second, Plaintiffs' claims against the SBCC do not fall within the narrow  
8 exception for suits seeking prospective injunctive relief against state officials  
9 with "some connection with the enforcement of the act." *Ex parte Young*, 209  
10 U.S. 123, 157 (1908).

11 Third, Congress has not abrogated the States' sovereign immunity. That  
12 test asks first whether Congress "unequivocally expressed its intent to abrogate"  
13 the states' immunity in the legislation itself[,] and second, if the answer is yes,  
14 "whether Congress acted pursuant to a . . . grant of constitutional authority."  
15 *See Douglas*, 271 F.3d at 818 (quoting *Kimel v. Fl. Bd. of Regents*, 528 U.S. 62,  
16 73 (2000)). Neither prong is met here. EPCA does not contain any unequivocal  
17 expression of Congress's intent to abrogate the states' immunity, meaning the  
18 inquiry ends there. *See id.* And regardless, Congress does not have the power to  
19 abrogate state immunity in legislation passed under its Article I commerce clause  
power. *Kimel*, 528 U.S. at 78–79.

The Eleventh Amendment therefore bars Plaintiffs' claims against the

1 SBCC and requires dismissal of the Complaint. *See Minnesota Auto Dealers*  
 2 *Ass'n v. Minnesota by & through Minnesota Pollution Control Agency*, 520 F.  
 3 Supp. 3d 1126, 1132–33 (D. Minn. 2021) (dismissing EPCA preemption claim  
 4 against State of Minnesota and Minnesota Pollution Control Agency as barred by  
 the Eleventh Amendment).

5 **B. Plaintiffs Cannot Establish Justiciability Under Article III**

6 The Complaint must also be dismissed because it fails to show  
 7 justiciability under Article III and, therefore, the Court lacks subject matter  
 8 jurisdiction. In addition, this case is not prudentially ripe. Plaintiffs' preemption  
 9 challenge is not fit for judicial resolution, because the SBCC has delayed the rules  
 10 in order to permit rulemaking to ensure compliance with EPCA's preemption  
 11 provision. And Plaintiffs have shown no harm from delaying resolution until the  
 SBCC's rulemaking process runs its course and concrete facts develop.

12 **1. Plaintiffs cannot show Article III standing or ripeness**

13 Two related doctrines of justiciability—each originating in the case-or-  
 14 controversy requirement of Article III—make clear that Plaintiffs' case is not  
 15 justiciable. First, Plaintiffs fail to assert the injury-in-fact necessary to  
 16 demonstrate standing, which must be “concrete and particularized and . . . actual  
 17 and imminent, not conjectural or hypothetical.” *Lujan v. Defs. of Wildlife*, 504  
 18 U.S. 555, 560 (1992) (cleaned up). Second, the case must be “ripe”—that is, it  
 19 cannot be dependent on “contingent future events that may not occur as  
 anticipated, or indeed may not occur at all.” *Trump v. New York*, 141 S. Ct. 530,

1 535 (2020) (quoting *Texas v. United States*, 523 U.S. 296, 300 (1998)); *see also*  
 2 *Thomas v. Anchorage Equal Rights Comm’n*, 220 F.3d 1134, 1138 (9th Cir.  
 3 2000) (en banc) (noting that the Article III ripeness inquiry “is often treated under  
 4 the rubric of standing,” and “in many cases . . . ripeness coincides squarely with  
 standing’s injury in fact prong.”).

5 Plaintiffs cannot make this showing. The rules they claim will cause them  
 6 injury (*see* ECF No. 1 at 10–11 ¶¶ 36–42) have been delayed in order for the  
 7 SBCC to consider amended rules following the Ninth Circuit’s preemption  
 8 analysis in *California Restaurant Association v. City of Berkeley*. Bumbalov  
 9 Decl. ¶¶ 11–17, Exs. B, C; Decl. of Kjell Anderson (Anderson Decl.) ¶¶ 8–9. As  
 10 *California Restaurant Association* pointed out, EPCA explicitly exempts state  
 building codes from preemption if they meet certain criteria listed in 42 U.S.C. §  
 11 6297(f)(3). *See Cal. Restaurant Ass’n*, 65 F.4th at 1052. The purpose of the  
 12 SBCC’s rulemaking is to amend its rules to address preemption under EPCA.  
 13 Bumbalov Decl., Ex. C; Anderson Decl. ¶ 8. If the process is not complete by the  
 14 rules’ effective date of October 29, 2023, the SBCC can delay the effective date  
 15 again by filing a new CR 103P form. Wash. Rev. Code §§ 34.05.360, .380; *see*  
 16 *also* Bumbalov Decl. ¶ 18; Anderson Decl. ¶ 10. As a result, any injuries  
 17 Plaintiffs allege will occur if the delayed rules go into effect are the definition of  
 18 “conjectural [and] hypothetical.” *Lujan*, 504 U.S. at 560. Their case is “dependent  
 19 on ‘contingent future events that may not occur as anticipated, or indeed may not  
 occur at all.” *See Trump*, 141 S. Ct. at 535 (quoting *Texas*, 523 U.S. at 300).

1 Further, Plaintiffs are unable to dispute that if they (and their customers)  
2 apply for building permits in the meantime, their projects will vest under the  
3 current rules, which do not contain the challenged provisions. *See* Decl. of Dustin  
4 Curb (Curb Decl.) ¶ 6; *see also* *Hull v. Hunt*, 331 P.2d 856, 859 (Wash. 1958)  
5 (“[T]he right [to build] vests when the party, property owner or not, applies for  
6 his building permit, if that permit is thereafter issued.”).

7 For an additional reason, the utility and natural gas industry worker  
8 Plaintiffs lack standing. Plaintiffs claim the delayed rules “have caused harm  
9 through the erosion of their customer base through the permanent loss of new  
10 customers over time.” ECF No. 1 at 11 ¶ 41. But these customers could, just as  
11 the Plaintiff builders and property owners, apply for permits under the rules as  
12 they currently stand. And importantly, even if this Court enjoins the delayed rules  
13 on a permanent basis, nothing will force these customers to choose natural gas  
14 over electric appliances. This is a case where the remedy to utilities and other  
15 natural gas industry participants depends on the “unfettered choices made by  
16 independent actors not before the court[[]].” *See Lujan*, 504 U.S. at 562 (quoting  
17 *ASARCO Inc. v. Kadish*, 490 U.S. 605, 615 (1989)). Because an order from this  
18 court will not require a change in the behavior of third parties, these Plaintiffs’  
19 claimed injuries cannot be remedied by the Court, and they lack standing. *See*  
*Pritikin v. Dept. of Energy*, 254 F.3d 791, 799 (9th Cir. 2001); *San Diego Cnty.*  
*Gun Rights Comm. v. Reno*, 98 F.3d 1121, 1130 (9th Cir. 1996).

1 In sum, Plaintiffs have failed their burden of showing actual or imminent  
2 injury resulting from the delayed rules, and their case is unripe. It must therefore  
3 be dismissed for lack of subject matter jurisdiction.

4 **2. This case is not prudentially ripe**

5 Even if the Complaint met Article III’s requirements, the Court should  
6 decline to exercise jurisdiction because this case is not prudentially ripe. The  
7 ripeness doctrine “prevent[s] the courts, through avoidance of premature  
8 adjudication[] from entangling themselves in abstract disagreements.” *Twitter,*  
9 *Inc. v. Paxton*, 56 F.4th 1170, 1173 (9th Cir. 2022) (quoting *Portman v County*  
10 *of Santa Clara*, 995 F.2d 898, 902 (9th Cir. 1993)). To determine whether a case  
11 is prudentially ripe, courts consider (1) whether the issues are fit for judicial  
12 resolution and (2) the potential hardship to the parties if judicial resolution is  
13 postponed. *Wolfson*, 616 F.3d 1045, 1060 (9th Cir. 2010) (citing *Abbott Labs v.*  
14 *Gardner*, 387 U.S. 136m 149 (1967)); *id.* at 1064 (finding certain claims were  
15 not prudentially ripe because they rested upon contingent future events that might  
16 not occur as anticipated, if at all). Here, neither prong is met.

17 First, the issues are not fit for judicial resolution at this stage because  
18 although Plaintiffs seek to challenge the rules on EPCA preemption grounds, the  
19 SBCC has delayed the rules’ effective date for the express purpose of providing  
sufficient time to amend the rules to fit within the EPCA exception to preemption.  
Deciding this case now, on the basis of rules that are not in effect and that may

1 never go into effect, would make little sense. Rather, the Court should wait until  
2 it is clear what set of rules will govern.

3 Second, Plaintiffs have not shown a credible threat of harm from delaying  
4 adjudication until it is clear which set of rules are or will be in place. Delaying  
5 adjudication will not prejudice Plaintiffs' ability to bring a preemption challenge  
6 to the rules that ultimately become effective. If the SBCC adopts amended rules  
7 in light of *California Restaurant Association* (which would not go into effect  
8 until at least 30 days after they are filed, *see* Wash. Rev. Code § 34.05.380(2)),  
9 Plaintiffs may determine that the amended rules do not raise preemption  
10 concerns—further underscoring the lack of ripeness here. But if Plaintiffs still  
11 believe the amended rules are preempted, or if the SBCC decides to cease  
12 rulemaking and allow the delayed rules to take effect, Plaintiffs can bring a  
13 challenge at that time (if it complies with the Eleventh Amendment). Any future  
14 action would have the benefit of actual facts about which set of rules are or will  
15 be in place, rather than pure conjecture. In the meantime, Plaintiffs cannot dispute  
16 that if they have a building project ready to go, then they can apply for a permit  
17 and vest under the rules as they are right now. Curb Decl. ¶ 6. Under prudential  
18 considerations, too, Plaintiffs' lawsuit is therefore unripe.

## 19 V. CONCLUSION

For the reasons stated above, the Court should dismiss the Complaint as  
barred by the Eleventh Amendment and for lack of subject matter jurisdiction.
